Number of Reports with Forms	20
Number of Reports based on Queries, Aggregate Queries	6
Included any trigger/other feature which is not taught in class. If yes, please explain briefly.	Trigger added for- Days until event, after inserting the event date, will dynamically calculate with today's date that how many days are left until the event
Write the most unique feature/functionality in your application or the page of your application that you are proud of. Explain briefly.	Authentication and authorization- that only admins can have access to all the data including admin information. The other users will not be able to access admin info. Trigger- The trigger calculates how many days are left until the event with today's date at the time of inserting each event date. If the event has already been hosted then the days will show as negative meaning how many days have passed. Though we wanted to show it like "2 days ago", however the trigger calculates decimal value so it was hard to add texts with it.

4.5

The screenshot shows the FestiveFlow application interface. The left sidebar contains a menu with items: Home, Users, Event, Organizer, OrganizerPhone, OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity, Feedback, Payment, and Venue. The main content area is titled "Organizer" and displays a table with three columns: Organizerid, Organizername, and Organizeremail. The table contains three rows of data. A "Create" button is visible in the top right corner of the table area.

Organizerid	Organizername	Organizeremail	Userid
3001	Shayma	shayma@gmail.com	Shayma
3002	Junayed	junayed@gmail.com	Junayed
3003	Yousuf	yousuf@gmail.com	Yousuf

4.6

The screenshot shows the FestiveFlow application interface with a "Form" overlay. The form contains input fields for OrganizerID, Organizername, Organizeremail, and a dropdown menu for Userid. The "Organizer" table from the previous screenshot is visible in the background, but the form is the primary focus.

Organizerid	Organizername
3001	Shayma
3002	Junayed
3003	Yousuf

4.7

The screenshot shows the FestiveFlow application interface. On the left is a navigation menu with items: Home, Users, Event, Organizer, OrganizerPhone (selected), OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity, Feedback, Payment, and Venue. The main area is titled 'OrganizerPhone' and displays a table with the following data:

	Phoneid	Organizerid	Phonenumber
	4001	Shayma	01547896541
	4002	Junayed	01458796325
	4004	Junayed	01896574657
	4003	Yousuf	01789653214

At the bottom right of the table, it says '1 - 4'. There is a 'Create' button in the top right corner of the table area. The browser address bar shows 'apex.oracle.com/pls/apex/r/sanjana5/festiveflow/organizerphone?session=120824400715673'.

4.8

This screenshot shows the same FestiveFlow application, but with a 'Form' overlay on the right side for creating a new OrganizerPhone entry. The table from the previous screenshot is still visible in the background. The 'Form' overlay contains the following fields:

- PhoneID (text input)
- Organizerid (dropdown menu)
- Phonenumber (text input)

At the bottom of the form, there are 'Cancel' and 'Create' buttons. The browser address bar remains the same.

4.9

The screenshot shows the FestiveFlow application interface. On the left is a navigation menu with items: Home, Users, Event, Organizer, OrganizerPhone, **OrganizerAddress**, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity, Feedback, Payment, and Venue. The main content area is titled "OrganizerAddress" and contains a table with the following data:

	Addressid	Organizerid	Street	City	State	Zipcode
	5001	Shayma	Jatrabari	Dhaka	South	1204
	5004	Shayma	3	a Block, Banasree	Dhaka	1234
	5002	Junayed	Wari	Dhaka	South	1203
	5003	Yousuf	7/A	Dhanmondi	Dhaka	1210

At the bottom right of the table, it says "1 - 4". There is a "Create" button in the top right corner of the table area. The browser address bar shows "apex.oracle.com/pls/apex/r/sanjana5/festiveflow/organizeraddress?session=120824400715673".

4.10

The screenshot shows the FestiveFlow application interface with a "Form" modal open on the right. The main content area is titled "OrganizerAddress" and contains a table with the following data:

	Addressid	Organizerid	Street
	5001	Shayma	Jatrabari
	5004	Shayma	3
	5002	Junayed	Wari
	5003	Yousuf	7/A

The "Form" modal on the right has the following fields:

- AddressID
- Organizerid (dropdown menu)
- Street
- City
- State
- Zipcode

At the bottom of the form, there are "Cancel" and "Create" buttons. The browser address bar shows "apex.oracle.com/pls/apex/r/sanjana5/festiveflow/organizeraddress?session=120824400715673".

The screenshot shows the FestiveFlow application interface. The top navigation bar is blue with the text "FestiveFlow" and a user profile icon labeled "nitu". The left sidebar is dark blue with a list of navigation items: Home, Users, Event, Organizer, OrganizerPhone, OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration (highlighted), Activity, Feedback, Payment, and Venue. The main content area is titled "Registration" and contains a table with the following data:

	Registrationid	Registrationdate	Eventid	Attendeeid
	12002	1/10/2025	CSE Workshop	Sarwar Jahan
	12001	1/14/2025	CSE Fest	Musharrat
	12004	1/18/2025	CSE Workshop	Musharrat
	12005	2/1/2025	Winter Fest	Benzema
	12003	1/15/2025	Winter Fest	Rukaiya

Below the table, there is a "1 - 5" indicator. At the bottom of the page, there is a status bar showing "Release 1.0" and various application controls like "App 142594", "Page 20", "Session", "Debug", "Quick Edit", and "Customize".

4.20

This screenshot shows the same FestiveFlow application as the previous one, but with a "Form" overlay on the right side. The "Registration" table is still visible in the background. The "Form" overlay contains the following fields:

- RegistrationID
- Registrationdate
- Eventid
- Attendeeid

At the bottom right of the form overlay, there is a "Create" button. The bottom status bar remains the same as in the previous screenshot.

4.21

The screenshot shows the FestiveFlow application interface. On the left is a dark sidebar with a menu containing: Home, Users, Event, Organizer, OrganizerPhone, OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity (highlighted), Feedback, Payment, and Venue. The main content area is titled "Activity" and features a table with the following data:

	Activityid	Activityname	Activitydescription	Eventid
	13005	Valorant	Competition between ewu gaming team and nsu gaming team	CSE Fest
	13001	eFootball	Faceoff between two contestants	CSE Fest
	13002	Concert	Shironamhin	Winter Fest
	13003	Food stalls	Stalls of various food, cake, pitha etc.	Winter Fest
	13010	AutoCad	3D Modeling by MR. Mahir	CSE Workshop

Below the table is a pagination bar showing "1 - 5". At the bottom of the page, there is a status bar with "Release 1.0" and a toolbar with icons for App 142594, Page 22, Session, Debug, Quick Edit, and Customize.

4.22

This screenshot is similar to the previous one, but it includes a "Form" overlay on the right side of the screen. The overlay contains input fields for: ActivityID, Activityname, Activitydescription, and Eventid (a dropdown menu). The "Activity" table and sidebar are visible in the background, though slightly dimmed. The status bar at the bottom remains the same, showing "Release 1.0" and the application toolbar.

4.23

The screenshot shows the FestiveFlow application interface. On the left is a navigation menu with items: Home, Users, Event, Organizer, OrganizerPhone, OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity, Feedback (highlighted), Payment, and Venue. The main content area is titled "Feedback" and contains a table with the following data:

	Feedbackid	Feedbacktext	Feedbackdate	Eventid	Attendeeid
	12502	Looking forward to it	1/4/2025	CSE Workshop	Musharrat
	12504	Since the previous event was good, excited for this one	1/2/2025	Winter Fest	Paromita
	12501	Need some improvement	1/2/2025	CSE Fest	Sarwar Jahan

Below the table is a "1 - 3" pagination indicator. At the bottom of the screen, there is a status bar showing "Release 1.0" and various application controls like "App 142594", "Page 24", "Session", "Debug", "Quick Edit", "Customize", and a "Create" button.

4.24

This screenshot is similar to the previous one, but it includes a "Form" overlay on the right side of the screen. The overlay contains input fields for: FeedbackID, Feedbacktext, Feedbackdate, Eventid, and Attendeeid. The main "Feedback" table is still visible in the background, showing the same three records. The bottom status bar is also present, showing "Release 1.0" and application controls, with a "Create" button at the bottom right.

4.25

The screenshot shows the FestiveFlow application interface. The left sidebar contains a navigation menu with items: Home, Users, Event, Organizer, OrganizerPhone, OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity, Feedback, Payment (highlighted), and Venue. The main content area is titled "Payment" and displays a table with the following data:

	Paymentid	Paymentamount	Paymentdate	Attendeeid	Eventid	Ticketid
	12401	1500	1/10/2025	Sarwar Jahan	CSE Workshop	VIP
	12403	1800	1/1/2025	Benzema	Winter Fest	VIP
	12405	2000	1/15/2025	Rukaiya	Winter Fest	VIP
	12402	500	1/23/2025	Musharrat	CSE Fest	Regular
	12404	700	1/18/2025	Musharrat	CSE Workshop	Regular

At the bottom of the table, it says "1 - 5". The bottom status bar shows "Release 1.0" and various application controls.

4.26

This screenshot is similar to the previous one, but with a "Form" overlay on the right side. The overlay contains input fields for the following fields: Paymentid, Paymentamount, Paymentdate, Attendeeid, Eventid, and Ticketid. The Payment table data is visible in the background, showing the same five records as before.

4.27

The screenshot shows the FestiveFlow application interface. The sidebar on the left contains navigation links: Home, Users, Event, Organizer, OrganizerPhone, OrganizerAddress, Attendee, Ticket, RegularTicket, VIPTicket, Registration, Activity, Feedback, Payment, and Venue (highlighted). The main content area is titled 'Venue' and features a search bar with a 'Go' button and an 'Actions' dropdown. Below the search bar is a table with the following data:

	Venueid	VenueName	VenueLocation	VenueCapacity	VenueDescription
	504	Blue Olive	Hatirjhil, Rampura	1800	Broadway-style theatre
	505	Grand Sultan	Baily Road, Dhaka	1200	Convention Center
	502	EWU Auditorium	East West University, Dhaka	1500	Open Auditorum Hall
	501	EWU Ground	East West University	2000	The open ground of East West University
	503	Siraj Covention Hall	Siraj Covention, Banasree	2500	Outdoor arena for large events

At the bottom right of the table, it says '1 - 5'. The footer of the application shows 'Release 1.0' and a status bar with icons for App 142594, Page 28, Session, Debug, Quick Edit, and Customize.

4.28

This screenshot shows the same FestiveFlow application interface as the previous one, but with a 'Form' overlay on the right side. The 'Form' overlay contains input fields for creating a new venue:

- VenueID
- VenueName
- VenueLocation
- VenueCapacity
- VenueDescription

The 'Venue' table in the background is still visible, showing the same data as before. The sidebar and footer are also present. A 'Create' button is visible at the bottom right of the form overlay.

The screenshot shows the FestiveFlow application interface. On the left is a navigation menu with items: Feedback, Payment, Venue, Hosted, **Equipment**, Employee, Volunteer, Admin, Sponsor, EventActivityDetails, EventSponsorDetails, EventFullDetails, TicketDetails, EventPaymentSummary, and VIPAttendeeDetails. The main area is titled "Equipment" and contains a table with the following data:

	Equipmentid	Equipmentname	Equipmenttype	Equipmentdescription	Eventid
	20001	LED Screen	Digital	100 LED panels	Winter Fest
	20002	Guitar	Electric	5 Electric Guitar	Winter Fest
	20003	Monitor	180 Hz, 2K	4 High resolution monitor	CSE Fest

At the bottom of the table, it says "1 - 3". The bottom status bar shows "Release 1.0" and various application controls.

4.32

This screenshot is similar to the previous one, but with a "Form" overlay on the right side. The overlay contains input fields for: EquipmentID, Equipmentname, Equipmenttype, Equipmentdescription, and Eventid (with a dropdown arrow). The "Equipment" table is visible in the background, showing the same data as before. The bottom status bar and navigation menu are also present.

The screenshot shows the 'Admin' page in the FestiveFlow application. The left sidebar contains a menu with items: Feedback, Payment, Venue, Hosted, Equipment, Employee, Volunteer, Admin (selected), Sponsor, EventActivityDetails, EventSponsorDetails, EventFullDetails, TicketDetails, EventPaymentSummary, and VIPAttendeeDetails. The main content area displays a table of admin users with columns: Employeeid, Adminrole, and Adminpass. The table contains four rows of data. A 'Create' button is visible in the top right corner of the table area. The bottom status bar shows 'Release 1.0' and various application controls.

	Employeeid	Adminrole	Adminpass
	17010	CEO	radin
	17040	Supervisor	nitu
	17030	Manager	hasan
	17099	Proctor	tuhin

4.38

The screenshot shows the 'Admin' page with a 'Form' overlay for creating a new admin user. The form has three input fields: EmployeeID, Adminrole, and Adminpass. The 'Admin' table is visible in the background, showing the same data as in the previous screenshot. The 'Create' button is located at the bottom right of the form overlay. The bottom status bar shows 'Release 1.0' and various application controls.

4.39

The screenshot shows the FestiveFlow application interface. On the left is a dark sidebar with a menu containing items like Feedback, Payment, Venue, Hosted, Equipment, Employee, Volunteer, Admin, Sponsor, and various event details. The main area is titled 'Sponsor' and contains a table with columns: Eventid, Sponsorid, Sponsorname, Sponsorcontact, and Userid. The table lists three sponsors: Anis (Eventid 2003, Sponsorid 2560, Contact 01898956564), Saddam (Eventid 2001, Sponsorid 2501, Contact 01458798653), and Rifat (Eventid 2002, Sponsorid 2520, Contact 01784512547). Above the table is a search bar and a 'Go' button. A 'Create' button is in the top right. The bottom status bar shows 'Release 1.0' and various application controls.

	Eventid	Sponsorid	Sponsorname	Sponsorcontact	Userid
	2003	2560	Anis	01898956564	Anis
	2001	2501	Saddam	01458798653	Saddam
	2002	2520	Rifat	01784512547	Rifat

4.40

This screenshot is similar to the previous one but includes a 'Form' overlay on the right side. The 'Form' overlay contains input fields for EventID, SponsorID, Sponsorname, Sponsorcontact, and a dropdown for Userid. The 'Sponsor' table and sidebar are visible in the background, slightly dimmed. The 'Create' button is at the bottom right.

5. Reports based on Multi-Table and Aggregate Queries

Page Number and Name	Query Type	Report description
EventActivityDetails(42)	Aggregate	Shows the event and activity information and counts total activities per event
EventSponsorDetails(44)	Multi-table	Shows the event and their sponsor details
EventFullDetails(46)	Multi-table	Shows the event and their organizer information as well as the venue information of the event
TicketDetails(50)	Multi-table	Shows the ticket and the attendee information and the types of tickets the attendee bought
EventPaymentSummary(52)	Aggregate	Shows the payment information and total payment per event based on the tickets sold
VIPAttendeeDetails(59)	Multi-table	Shows the VIP attendee details and the events they attended, their ticket prices and facilities

7. Concluding Remarks

Completing this Event Management System project in SQL on Oracle Apex has been an incredible journey of growth, learning, and persistence. At the start, the scope of building a robust system seemed daunting, but as I delved deeper into database design, queries, and the powerful tools Oracle Apex provides, I realized how much could be achieved with patience and dedication.

This project challenged me to think critically, troubleshoot effectively, and stay adaptable to new challenges. From conceptualizing the database schema to implementing complex functionalities, every step taught me something valuable about problem-solving and attention to detail. There were moments of frustration—debugging SQL errors or aligning the user interface to meet expectations—but overcoming these hurdles brought immense satisfaction and pride in the final product.

One of the most rewarding parts was seeing how the system evolved from a simple idea to a functional platform. Overall, this project reinforced my passion for building systems that solve real-world problems. I'm immensely grateful for the experience, and I leave this project with a greater sense of confidence and motivation to take on even more ambitious challenges in the future. Thank you.
